

FOR IMMEDIATE RELEASE

**McMahon Associates, Inc. Announces Elevation of
Anton K. Kuhner, P.E. to Associate of the Firm**

FORT WASHINGTON, PA, April 6, 2021 – McMahon Associates, Inc., a transportation engineering and planning firm, is pleased to announce the elevation of Anton K. Kuhner, P.E. to Associate of the firm. This honor is in recognition by McMahon’s Board of Directors for his overall leadership and the innovative contributions he has made over the last 23 years he has been with the firm. Anton’s development and continued growth of the firm’s industry-leading, traffic signal and curb ramp programs, along with spearheading over \$22 million in successful grant acquisition for projects, has helped propel McMahon’s stellar reputation with its clients and teaming partners.

Associates’ names are synonymous with McMahon Associates, Inc., and an indication and recognition of the firm’s next generation of top leadership. Associates are viewed by the McMahon Board of Directors as key contributors and partners in the company’s present and future success, individuals who effectively advocate and lead company programs and policies, and employees who have the presence and leadership capabilities that inspire and instill confidence in staff and clients.

Anton is a Senior Project Manager, and the Regional Service Leader for Signals in the Mid-Atlantic Region. In this role, he is responsible for oversight of traffic signal design, signal warrant analysis and capacity analysis for the region’s municipal and public sector (Department of Transportation) projects. Anton has personally overseen the design of over 15,000 ADA Compliant Curb Ramp Designs, and has led key projects including the Passyunk Avenue Corridor Improvement and Allegheny/Olney/Erie Avenue Corridor Safety projects in Philadelphia, signal system implementations for Five Corridors/SAMI Improvement Final Design for PennDOT District 6-0 that ungraded 79 intersections in Philadelphia and Bucks County, PA, Red Light Enforcement Programs in Philadelphia, Anne Arundel and Prince George Counties in Maryland. He has also been the Traffic Engineer for more than 10 years in Hatfield Township in Montgomery County, PA.

Anton holds Professional Engineer registrations in Pennsylvania, New Jersey and Delaware. He also has a Level II Certification for the International Municipal Signal Association as a Work Safety Specialist and Traffic Signal Technician. Anton has been a featured speaker at numerous industry presentations including the Penn State Transportation Engineering & Safety Conference, TMA Bucks, and the WalkWorks Active Transportation Plans & Policies Conference. He is also a former member of the Warrington Township Planning Commission and a Board Member and Tournament Director for the Horsham Soccer Association.

“In a year that has seen tremendous challenges, it is exciting to look to the future of our firm and the promotion of a deserving employee to a new Associate of our firm,” said Joseph DeSantis, P.E., PTOE, President and CEO of McMahon Associates, Inc. “Anton has always been a great contributor to our firm. His insight into the early adoption of ADA standards for curb ramp implementations led to one of the largest market expansions that our firm has ever initiated at a critical time in the recession of 2008, and one that continues to grow today. His leadership of the Signals Division has given us the opportunity to lead large signal improvement projects across all of our regions and bring safe and optimized traffic flow to the communities that we serve. Our Associates are

truly dedicated and are thought leaders at McMahon. It gives me, and the Board of McMahon, great pleasure to include Anton in the top-tier ranks of our leadership at the firm to help us continue looking forward for future success.”

About McMahon Associates, Inc.

Since 1976, McMahon Associates, Inc. has specialized in delivering innovative engineering, planning, design and technological transportation solutions to our clients. We have built trusting and lasting relationships by satisfying, and often surpassing, the needs of both governmental and private sector clients.
